

Message of to all of the residents

Novel coronavirus infection Nagano prefecture task force sent "medical state of emergency declaration" to all prefectures as well as started infection cautious level 5 of all areas "novel coronavirus special warning, 2" today.

In Kamiina, the number of newly infected people is increasing rapidly, and the number of positive cases is increasing, especially for those who have a history of traffic to and from outside the prefecture.

Be put by everybody of a citizen, and carry the following behavior without exception, and the above mentioned infection control measure up to now, please.

Business trip, travel and returning to your hometown, please, so that the movement which straddles a border between prefectures may be canceled or postponed to the utmost.

Please reduce a contact chance with a person as much as possible.

* Please limit going out to activity necessary to living maintenance (commutation and shopping of going to school and food, etc.).

* Please avoid a crowded place and a badly ventilated place to the utmost.

Cut down a meeting except for a workplace and school, and even when needing a meeting, please make it a small number of people (to the utmost, within 4 people) and a short time.

The next in case of dining together including homes, please.

* Please cut down dining together with the person who doesn't usually meet such as an alumni association and relative's party.

* When thoroughness of an infection measure is difficult about dining together of more than 5 people with drinking who do besides the family of living, please cut down implementation.

The occasion with the symptom by which it's for fever cut down going out, and, please, so that I may consult a family doctor immediately.

To stop explosive infection expansion and protect the medical care with which important life and that are supported, now is a crucial moment. Citizen's everybody's understanding and cooperation, please.

2021 August 20

Mayor of Ina-city Takashi Shirotori.
